DETAILED ACTION

This office action is in response to applicant's terminal disclaimer filed August 15, 2005.

Terminal Disclaimer

The terminal disclaimer filed on August 15, 2005 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of application 10/728,800 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: while the prior art in Glenn et al. (U.S. 6,483,030) discloses bringing together first and second mold halves and forming hollow molded caps from a layer of mold material, it fails to disclose or make obvious use of thermoplastic mold material, retaining caps in a mold half while applying the caps to one side of a wafer, or that the CTE of the mold half is compatible with the CTE of the wafer.

In contrast, Glenn caps are removed from its mold halves prior to applying the caps to the wafer, which eliminates the concern for making the CTE of the mold half compatible with that of the wafer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

• accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art in Komatsu shows the use of molds to form a cap.
